≤75%	○	○	☀	●	☀	FLASH
<100%	○	○	○	☀	○	ON
100%	○	○	○	○	●	OFF
ERR	☀	☀	☀	☀		

## Discharging

Connect your device to the power bank to charge it. The indicator shows the following discharging conditions:

0%	●	●	●	●
≤25%	☀	●	●	●
≤50%	☀	☀	●	●
≤75%	☀	☀	☀	●
≤100%	☀	☀	☀	☀

☀ FLASH  
● OFF

### Low-current discharge

When the power bank is not charging, double press the battery level check button to enter the low-current discharge mode. This mode can be used to charge low-current devices such as Bluetooth earphones and smart bands. The indicator lights will turn on one by one to indicate the power bank is in low-current discharge mode. Simply press the button again to exit this mode. The power bank will automatically exit this mode after two hours.

Improper use may result in battery failure, overheating, and even fire or explosion. To ensure your safety and minimize the risk of personal injury and property damage, please observe the following precautions:

- Make sure you use a charger that complies with local safety standards when charging the product.
- Do not place the product in a place that affects its heat dissipation (such as covered by clothing, pillows, bedding, or other debris) to charge it or use it to charge other devices.
- Do not dismantle, crush, squeeze, puncture, or short-circuit the product. Do not expose it to liquids, fire, and other heat sources such as stoves and heaters. Do not place it in an environment with an ambient temperature higher than 60°C (140°F).
- In case of a serious drop, strong vibration, liquid entry, swell, deformation, liquid leakage, or significant capacity decrease, please stop using the product immediately and dispose of it properly.
- Please dispose of the product, battery and other accessories in accordance with local laws and regulations and do not dispose of them as household waste.
- It is strictly forbidden to disassemble the product without permission. Do not replace the battery on your own.
- Please keep the product out of reach of children.

## Precautions

---

- Please fully charge the product on its first use.
- When charging the product or using it to charge other devices, please select the appropriate charger and charging cable.
- When charging the product or using it to charge other devices, please ensure that someone is present, and unplug the charger and charging cable after the charging is completed. If the battery level indicator does not light up after pressing the button, it may be because the product is in the protective mode. Charge the product to restore it. When the product is not in use for an extended period of time, keep its battery level at around 50%, and store it in a cool and dry place. Avoid long-term storage of the product at full or empty battery level to extend its battery life.

Note: Illustrations of product, accessories, and user interface in the user manual are for reference purposes only. Actual product and functions may vary due to product enhancements.

## Specifications

---

Model: PB100DPDZM Battery Type: Lithium-ion polymer battery  
Battery Capacity: 37 Wh, 3.7 V, 10000 mAh Rated Capacity: 5500 mAh (5 V/3 A)  
Input Port: Type-C Output Port: USB-A/Type-C Input: 5 V=3 A, 9 V=2.5 A  
Output: (USB-A) 5 V=3 A, 9 V=2.23 A, 12 V=1.67 A, 10 V=2.25 A Max.  
(Type-C) 5 V=3 A, 9 V=2.23 A, 12 V=1.67 A, 10 V=2.25 A Max. (Triple-port) 5 V=3 A  
Operating Temperature: 5°C to 35°C Item Dimensions: 147.8 × 73.9 × 15.3 mm  
Charging Time: Approx. 4.5 hours (with charging cable included, and a 9 V/2 A charger)  
Approx. 6 hours (with charging cable included, and a 5 V/2 A charger)

## EU Declaration of Conformity

---

The manufacturer hereby, declares that this equipment is in compliance with the applicable Directives and European Norms, and amendments. The full text of the EU declaration of conformity is available at the following internet address:  
<http://www.mi.com/global/service/support/declaration.html>

## WEEE Information

---

All products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.

## Federal Communications Commission Supplier's Declaration of Conformity

---

This supplier's declaration of conformity is hereby for

Product: Xiaomi 22.5W Power Bank 10000

Model Number(s): PB100DPDZM

Brand/Trade: Xiaomi

We declare that the above mentioned device has been tested and found in compliance with CFR 47 Part 15 Regulation.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference,
- (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
